# Opening a new restaurant? About to undergo a Refurb?

Whether you're opening a new restaurant or whether its simply time for that make over, there is always certain items which are hard to finance. You know what we mean...that essential but

expensive custom-made refrigeration system, the cold room out the back or the stainless steel benching throughout your establishment. The list could go on! Silver Chef now have the answer...

## The SWIFT OPTION

The **SWIFT OPTION** is the innovative new finance solution from Silver Chef. An extension of our successful Rent•Try•Buy™ Solution, the **SWIFT OPTION** has been designed to accommodate most fit-out requirements, allowing you to finance everything from stainless steel benching through to custom-made equipment.

Like our Rent•Try•Buy™ Solution, the **SWIFT OPTION** is perfect for restaurateurs and caterers who want to keep their options open! How? The **SWIFT OPTION** is a 12 month rental agreement - you are not locking yourself into a long term contract - which gives your business the option to:

1. Purchase the equipment at anytime during the first 12 months and receive a 75% rental rebate;
2. Return the Equipment at the end of the 12 Month agreement should you decide it is no longer required;
3. Continue to rent - and we'll simply continue to reduce the purchase price for you;
4. Upgrade after 12 months should you decide your business has outgrown the original equipment.

The **SWIFT OPTION**, like our Standard Rent-Try-Buy™ Solution, also offers business owners the following benefits:

- ✓ 12 month rental agreement – no long term contracts
- ✓ Low weekly repayments – frees up your valuable working capital
- ✓ Try before you buy
- ✓ Purchase at anytime within the first 12 months and receive a 75% rental rebate
- ✓ No Directors' Guarantees – why put your house on the line?
- ✓ Fully tax deductible rental payments
- ✓ An easy one page application form with approval within 24 hours!

So the only difference between the **SWIFT OPTION** and our Standard Rent-Try-Buy™ Solution is that you are paying your equipment off more quickly — or SWIFTLY — making the payout figure at the end of the agreement considerably less.
